

The Flag Gets Folded the Same Way Every Time

Any Meeting

Court of Honor

Every week we fold that flag the exact same way — thirteen folds, same order, every time. Some of you have probably wondered why we're so particular about it. It's because some things deserve consistency and care, even when nobody's grading you on it. Citizenship is like that too — showing up, paying attention, doing your part even when it's routine and nobody's watching. The folds matter because what they represent matters.
